**WEAR PARTS FOR JAW CRUSHERS, CONE CRUSHERS AND
IMPACT CRUSHERS**

DIACEROS is a company specialized in the commercialization of anti-wear alloys for applications in the inert, mining and related industries. The company has a high know-how, based on a technical team with high experience in the sector, which allows to present specific solutions for each application.

Mantles, Concaves and Jaws

Mantles, Concaves and Jaws marketed by DIACEROS are produced in high quality manganese steels, carefully selected for the application of the parts, allowing maximum durability.

The existence of 5 manganese alloys, which differ in terms of chemical composition and heat treatment, allows an adequate selection of the steel as a function of the work performed by the pieces (shock versus abrasion binomial).

ACCESSORIES FOR CRUSHER EQUIPMENTS

We have a complete range of accessories for Jaw Crushers, Cone Crushers and Impact Crushers from leading brands. We highlight:

- Cheeck plates and Rotor protection
- Toggle beam and fixing wedges for mantles, concaves and jaws
- Toggle plate and Toggle beam
- Crusher Backink Compound

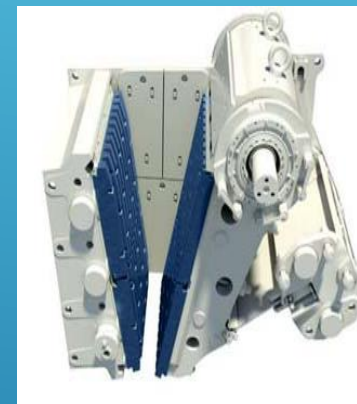

ACCESSORIES FOR CRUSHER EQUIPMENTS(cont.)

- Blow bars and Impact bars
- Bolts and Nuts, Feed cones and Plates
- Cone crusher bushings and seals

EQUIPMENT BRANDS
